At Kindred Spirit Steel Tongue Drums we do our best to keep our instruments accessible to everyone through our monthly contests, as well as our “Drum Donation Initiative”. This initiative was created to give away an instrument every month to a person in need, to help further our mission of “Creating Vitality Through Sound”.

We define a “person in need” as someone who:

1. Is a person of low income, or a parent/guardian with children in a low income household.
2. Is a person who suffers from, or a parent/guardian of someone who suffers from some form of physical or mental ailment or disability.
3. Is of minority status in some way, and is dealing with the challenges that come with that.
4. Is a person who experiences some other form of challenge not mentioned here, that would make acquiring an instrument through regular means very difficult and/or impossible.

We do our best to provide an instrument of choice when possible, but generally our drum donations are filled by our aesthetic seconds (So we are unable to guarantee a specific instrument should your application be chosen). However, if you have a preference for instrument attributes you can fill out the table below, and if it is possible to accommodate your wishes, we will do so. If you are unfamiliar, all of our products and product options can be viewed on our website: www.kindredspiritdrums.com
